## About Me

As a Computer Engineering student specializing in web development, I am passionate about building user-friendly and efficient applications. I have a strong foundation in both frontend and backend technologies, working with tools like React.js, Node.js, Express.js, MongoDB, and MySQL. Continuously exploring best practices in software development, I focus on creating scalable and high-performance web solutions. I enjoy solving complex problems, optimizing workflows, and keeping up with industry trends. My goal is to contribute to the tech industry by developing innovative applications that enhance user experiences and push the boundaries of modern web technologies.
